How is designing a degree different from choosing a major? Choosing a major is an important part of the process, but it is just one piece of your degree. Choosing a major you are interested in will make it easier to develop the valuable skills employers seek, but majors aren’t the only place to develop these skills. You can look to other opportunities for skill development such as service, leadership, study abroad, internships, minors, certificates, research, and more, you can create a degree that is truly unique.

### Next Steps in Designing My Degree

Some examples include:

- Explore options online: [majors.utah.edu](majors.utah.edu)
- Attend [Major Expo](https://majors.utah.edu) on September 18th in the Union Ballroom from 10-2
- Visit an Academic Advising Center Major Exploration Advisor or Department Advisor (if decided on major).
